**Reinvent Australia, Sir Stamford Hotel, Sydney, 30/11/2017**

Hi ... Prof Cherry,

On behalf of the Management Committee I want to thank you very much for last night. A good time was had by all. If I receive any requests for refunds because they feel we got them there under false pretences, I'll surely pass them on!

I'm still in disbelief as to how many people thought you were the real thing, despite your inane answers ... sorry Prof - "at Harvard we believe in systems within systems within systems until everything becomes so systemic, even systematic". Or when I asked you "How could Australia be more like the U.S.?" Didn't that bring the house down.

It just demonstrates the power of frames ... a very useful lesson for RA and for the issues we're addressing.

(Thank you) for your thought provoking, mind bending and somewhat challenging keynote. The feedback from our delegates is that whilst it took many a long time to understand your content, it was very well received nonetheless once they caught up! Of course, I was also grateful that your address did not focus too much on any one topic or person, particularly not myself. It was just the right celebration of "famous" people as you previously advised.

Thank you again. I would be very pleased to provide a testimonial or reference support if ever required.

**ConTech: Confectionery Technology, The Pullman, Albert Park, Melbourne, 30/04/2014**

[Follow-up Survey: Overall, how would you rate the level of performance of the speaker?]

Very Good

He was authentic and well research. He was generous with his time, including attending the afternoon tea and onward at the conference. He truly had some of the audience fooled to the end.

Jennifer Thompson - Technical & Regulatory Manager, The Australian Industry Group

Visiting Belgian professor of neuro-psychiatry, Dr Emmanuel van Hoof MD, took some of the audience hook, line and sinker. However, others were a little sceptical from the outset. For the scientists in the room, he performed to perfection, baffling colleagues. But did you ever think to check online and look this guy up, check out his credentials and scientific papers? Whilst he fooled many into having a good time, Sydney comedian, Rodney Marks, kept the audience entertained to the end.

**Harvard Club of Australia, House in Surry Hills, Sydney, 12/12/2013**

Great job on taking off academic jargon. It's just as much of a phenomenon in theology and philosophy -- and educational research -- as business, albeit with significantly more syllables in theology and philosophy ... if you can believe that!

Dr Robert Simons - Principal Research Fellow, Australian Council for Educational Research

**Tomago Aluminium, Hexham Bowling Club, Regional NSW, 5/12/2013**

**Rubik, Offices of Rubik, Sydney, 4/12/2013**

I'm still in disbelief at how many of our clients truly believed you were a psychiatrist working for Rubik ... even after Wayne thanked you using your real name. Amazing ...

**Datacom, Restaurant - Prime, Sydney, 28/11/2013**

Most people I spoke to were fooled in the first 5-20 minutes. This includes a number of staff. I think Wally mentioned one of our GMs was close to resigning that night as he had spent the day interviewing candidates on a deadline.

Had a lot of positive feedback thank you.

Kimmy Lawrence - NSW Administration Manager

Rodney was engaged to make an 'appearance' at our annual client Xmas function. His piece in our evening took a nice evening & made it memorable with lots of fun & chatter continuing well through the evening & for some days afterwards. An absolutely fabulous performance which had everyone in hysterics and set the tempo for the balance of the evening. I would thoroughly recommend Rodney for any & all corporate events that would benefit from a 'change-up' and lots of good fun & laughter!

Kevin Leighton - General Manager, Managed Services NSW

---

**CRC Business Solutions, Q1, Regional QLD, 31/10/2013**

I'm taking the unusual (for me) action of congratulating you on a superb effort last Thursday evening. I haven't laughed so much this century. I would have emailed earlier but muscle spasms from excessive laughing have only eased this morning.

Nelson Wockner - Managing Partner, Wockner Lawyers

(The band) "Busta Hyman and the Penetrators" thought the General was absolutely fantastic!

You made the night!

**Golf Management Australia, Royal Sydney Golf Club, Sydney, 2/09/2013**

The plan worked a treat, and I will stay in touch for some possible gigs in the future.

Stuart Fraser - Chief Executive Officer, Golf NSW

A pleasure to watch you perform, they were all talking about you (in a good way) all day Tuesday. It would be fun to work together again, hopefully that will happen.

Andrew Daddo - actor, author and television personality

I loved your "speech" to the GMA at Royal Sydney last week. I have to say you had me for a bit, I was thinking finally a politician with some wit! Plenty of mileage was made at Stephen's expense throughout the week. I also loved the way you handled Jack Newton at the end of the questions. Very professional.

Tony Rodgers - General Manager, Kogarah Golf Club

You were absolutely hilarious. I really enjoyed the brief time that we had together. I will keep you in mind for our event next year in Melbourne. I would like to stay in touch.

Jim G. James - Senior Director, Club and Hospitality Operations, Augusta National Golf Club

NO CHANCE HE'S SERIOUS

If you were deceived by Evan Chance last night, you were in the majority.

Evan (aka comedian Rodney Marks) perpetrated one of the most successful hoaxes in the history of Royal Sydney, posing as the Shadow Federal Minister for Sport, Housing, Immigration and Tourism to a packed room of GMA members.

Some got it quicker than others when Evan spoke of reducing golf courses to nine holes and building bus depots, detention centres and shipping terminals on the compulsorily-acquired land.

Others were not so quick on the uptake.

Stephen Pitt, CEO of Golf Australia, spent half an hour sitting next to Evan lobbying funds for a high performance golf academy.

Heath Wilson from Kingswood spent time cajoling the 'shadow' minister too, before confiding in resident scribe, Michael Davis, : "You've got to get the government on side."

Davis and his photographic cohort, Michael Court, were not immune to the ruse either. Both keenly embraced Evan's pre-dinner overture to consider joining the government media team.

GMA Daily News - the conference newsletter

You were fantastic, so we will certainly keep you in mind for future events.

Jessica Riches - Professional Conference Organise, EMG Events

## Roxbury Hotel, Hotel - The Roxbury, Sydney, 1/09/2013

Review written by Lloyd Bradford (Brad) Syke

Rodney Marks is something of a chameleon. Possibly the most personable comic you could ever hope to meet, he is the very picture of respectability, in pinstriped suit, fastidiously-pressed business shirt and old school tie (though look carefully, the traditional-looking emblem thereon may bear a trap). But when the jacket is removed, colourful suspenders betray a hint of mischief and eccentricity. Which means The Farewell Tour of Sydney's Longest Serving Public Servant should be approached with some caution, lest you become snagged on one of countless barbs, or fall into another of the traps he almost compulsively sets. This is to be expected, because Marks is a professional practical joker.

Any lengthy address by a senior public servant in the context of The Roxbury Hotel, in Glebe, on a Sunday afternoon, has to come under scrutiny and suspicion as a hoax. But the genius of Rodney Marks, MBA (Master of Bullshit Artistry), is that his comic monologue, to the unsuspecting or uninitiated, may not be immediately recognised as such. After all, he embraces all the buzzwords that would make him sound the part. He looks the part. And his sober demeanour does nothing to dispel one's reflexive credulity. The address is even flooded by an apparently earnest Q & A. Under the skin, though, his Farewell Tour 'is, as you might imagine, a clarification, elucidation, explanation and illumination of waffle, piffle, double-talk and bureaucratic nonsense'. So steeped are we in such, however, so bombarded by evasive, non-specific polliwaffle, we become susceptible to falling, haplessly, hopelessly and helplessly, into unwitting, sympathetic complicity with his 'self-referential parody and self-deprecating satire', which are 'underemployed and so is Rodney, hence this season'. Our compliance constitutes the comic elegance. Even having realised what we're in for and up against, we must remain, at all times, vigilant, so as not to have the parody do a one-eighty and bite us on the face.

If you've ever been to a convention, conference, congress, colloquium, seminar, tutorial, brainstorm, workshop or breakout session, you'll have something to laugh at, somewhere between the mission and vision statements, white papers, what-have-you. Marks covers all this ground. In his public service persona, he's a man of many words. Most, utterly and intrinsically meaningless which, of course, is as it should be. Much time is spent on linguistic assessment and analysis; because semantics matter.

As a child, I had the Professor Branestawm books. One of the good professor's revolutionary theories, as best I recall, was that if you go double your speed travelling between points A & B and keep doubling it, pretty soon you'll get to B at precisely the same time you left A and, should you go even faster, you'll get to your destination before you even left for it. The same internal logic seems to apply when Marks appeals to us, as follows. 'Perhaps if I talk for five minutes and you listen for five, we might both finish at about the same time. If you finish listening before I finish speaking, perhaps just sit quietly and think privately to yourself until I catch up; it would be most appreciated.'

And, of course, Marks is every bit as clever as Branestawm. By way of but one example, he's been able to put into a system he's developed the framework of a structure for the activities he describes. Well, something like that. We 'free radicals' can't be expected to penetrate such sophisticated modelling at first byte. Much of the modelling, as I'm sure you'll appreciate, proceeds from a semiotic and pragmatic viewpoint, as well it should. I mean, is there any other way of looking at it?

What's more, when Marks shares something (as he's only too pleased to do, being nothing if not generous with his knowledge, such as it is) off-the-record, he does so in the utmost confidence, moving the meeting into camera, so that what goes on is as discreet as it would be if it took place under a cone of silence. In the era of Assange, Manning, Snowden and wholesale identity theft (which, at least, is cheaper than retail), it's damn reassuring.

Just as a car that yes like greased lightning is likely to be automatic, systematic and hydromatic, Marks' thinking system, 'based as it is on systems thinking, isn't so much circumlocutory, annular, or radial, as systemic and, ultimately, cyclic; albeit in a roundabout sort of way'. In terms of process, I'm sure you'll be as relieved to learn, as I was, that 'the system itself is part of its own feedback loop', somewhat akin to 'the snake in Taoist philosophy, impossibly swallowing its own tail'. Inputs are input as input and then, as throughput, transformed, cunningly, into output, which is then measured; 'initially, qualitatively and, ultimately, quantitatively, against a plethora of hierarchies, an aggregation of continua and a collection of assessment criteria', before being put back into the system as refined input.

Marks even deigns to discuss the emerging popularity of research into the subject of deferred gratification, but promises 'more of that later'.

The co-writer (with his son, Benjamin) and performer is best summed-up, methinks, in his own words. 'Rodney performs mostly at business events for the corporate, government and non-profit sectors, so this is a rare opportunity to see him expose himself in public'. Except, in truth, he lays bare much more. As a result, I'm a Marksist.

Many thanks for joining in at such short notice as a compere and moderator for our Law Service Dinner. At least half of the guests have not yet filed suit and some of the judges have even confided that they agree with your assessment of many practitioners!

The feedback we have had on the evening has been very positive and your role in keeping it warm and on track was invaluable.

With all best wishes and looking forward to future collaboration,

### **Western Sydney Business Connection, Waterview in Bicentennial Park, Sydney, 7/12/2012**

"Dr Phil": Great work yesterday. Much good feedback and some are still scratching their heads - making it even funnier. I suspect the poor AV guy is seeking therapy.

\* Whitney Rousham - President

Hilarious session at lunch today Rodney... thank you.

\* Anthony Moss - Deputy Chair, Sydney Hills Business Chamber

### **Donington, Restaurant - Italian Village, Sydney, 6/12/2012**

Everyone is still laughing about your keynote.

Jane Paech - Business Operations Manager

What an intervention! After your speech on Thursday night, the next day was spent by most of the participants convincing each other they really did smell a rat! Yet all agreed that you had them completely fooled, even some of our most experienced and worldly wise were completely taken in. What a triumph! Personally, I shan't forget General Ariel Lieder in a hurry.

There is no doubt that the 10.30 pm billing on the Thursday evening was the correct slot as your speech and thoughts capped off a most enjoyable evening, and gave our celebrations a wonderful climax.

Monica and I were, as always, delighted to spend time with you, even if it meant that we had to play our part in the subterfuge! Monica certainly enjoyed it as it appealed to her wicked sense of humour and love for drama.

Very many thanks from us all. It was a pleasure to work with you, as always, and you can be assured that you left with our group a lasting impression and a wonderful memory.

Geoff Officer - Managing Director

### **Fairfax Holdings, Offices of Google, Sydney, 26/11/2012**

Everyone absolutely loved last night's speech. Most (but not all) admitted to the penny not dropping until about 15/20 minutes into proceedings. I thought that if anyone twigged as to your status yesterday, it would have been Tim Mannes, who was on your table ... but you even had him fooled (apart from a couple of instances where he sincerely doubted that you knew what you were talking about!!)

An Oscar-winning performance, and I hope we cross paths again some day

Lenore McCotter - EA to Chief Executive & Managing Director

You were hilarious. I thought it was great, and (CEO Greg) Hywood said you actually went easy on us...although Allan Browne might debate that :)

I'll look forward to catching you again

**Australian Public Sector Anti-Corruption Conference, The Esplanade Hotel, Perth, 16/11/2011**

Rodney performed sensationally and was extremely well received by the audience. He was the perfect speaker for the night. Based on feedback we received, his performance was one of the conference highlights.

I also appreciated his efforts in meeting with me and my colleagues on several occasions prior to the conference to ensure that his performance met our specific needs.

Finally, he went an extra yard or two by attending part of the conference, in character; as well as sitting at one our VIP tables for dinner, also of course in character, prior to his performance. This added authenticity to his character, in turn adding to the humour of his performance. I have since received correspondence from one of these VIP's that this was a 'memorable' occasion for him.

Roger Watson - Director Corruption Prevention, Corruption and Crime Commission of Western Australia

---

**Australian Cartoonists' Association: Stanley Awards, Mercure Sydney, Sydney, 12/11/2011**

---

**Boston Consulting Group - Management Consultants, Top of the Rock, New York, 4/10/2011**

Thanks for your efforts for the dinner. It was simply stunning. The guy next to me had tears rolling down his face as he thought we had a guest speaker who was inadvertently funny without realising it. He did not realise the whole thing was a gag until Andrew spoke at the end ... can you believe that? From our perspective it was a total success which I know just doesn't happen. I know that it takes careful and methodical preparation so thank you for that.

Phil Carrington - Executive Assistant

You did a superb job. Simply superb. People are talking about it and will be for months to come. Some even want your details so who knows where you might travel next (after Wagga I mean). You really made our night. You certainly made my night - I thought it was hilarious - and I know for many/most, it is a work event they won't forget.

**Sefar, Restaurant - Pavilion, Sydney, 3/02/2011**

A great night. Delighted to be hoaxed and scammed by Rodney. A true professional. ...

Rodney provided a completely believable character in Professor Phil Terrain, an American Professor in business studies at Harvard University. The audience were completely fooled, some still not believing they had been hoaxed after he left. I was particularly impressed with the obvious detailed preparation carried out to present such a believable character and delivery.

Excerpt from a review in Australian Stage, by Brad Syke

Be afraid, be very afraid. The world needs more of him, lest we start to take ourselves, our institutions, governments, corporations, processes or systems too seriously; a constant danger we must vigilantly guard against. Rodney Marks is a genius, wrapped in linguistic parody, inside a suit. Any resemblance to any executive, official, spokesperson, expert or authority is purely unavoidable.

Full Marks!

Hi Rodney - as far as I am aware you have got off scott-free - again! Very good feedback received - and I think one person thought your character were real and wanted a copy of your presentation!

You are still being talked about in the corridors which is a sign of an ever lasting impression.

Albert enjoyed it but said you must have come from the far east of Germany as he had never heard such an accent other than in Moscow.

It was great fun and I hope to witness you performing again one day

John Chapman - Regional General Manager NSW

I would like to pass on my thanks and congratulations for what was a most enjoyable and entertaining performance. The feedback has only been positive and poor David Brown will never be the same. **Energex, Sofitel Brisbane, Brisbane, 9/05/2008**

Rodney Marks was extremely entertaining, and I only wish I had been a fly at the table he was seated at when he was brought out his weight-watcher's meal. I have received great feedback from a number of guests on how funny he was and I have been asked for transcripts of his speech as they want to share it with the engineers who were not at the night.

- - -

Still getting great feedback and so many requests for a transcript of the speech - they have so many engineers the staff want to share your speech with - starting with the opening line you will be talking for half an hour and if they can listen for 30 minutes etc - they loved it all. I have already sent your details on to our SPARQ Communications Manager who said their CEO (who spoke to you on the night) was interested in finding out more. If you do have a summary of the funny statements you made they'd love to read it to their engineers. I have already forwarded on your 'backronyms.'

**Cardno, Inter.Continental Sydney, Sydney, 30/04/2008**

I found you very easy to work with, proactive, and understanding of the sensitivity and nature of our business. You can see from the vast number of compliments that this has been a very worthwhile event for us to run.

We had a large number of the room fooled, and some, even at the end, asking whether the merger was true but that we had had a comedian in to break the news, and they were our staff!

...

I have pulled together some of the comments from the night:

Stuart Jamieson-Pate - NSW/ACT Division Marketing / HR / QA Manager

---

Please pass on my thanks to Roger and the others at Cardno for a very enjoyable dinner.

Yes I was fooled.

Vince, thanks for inviting me to last night's dinner. I had a great time and was very impressed by your new Russian CEO. My abdominal muscles are still sore from all the laughing.

---

Good to see you all last night. What a surprise that Cardno has entered the Russian market. Think of all those brides you can now import!

---

Thanks Roger. I had a great night, and was totally conned by the Generals

---

Thank you. It was a great night and especially enjoyed Vladimir. In fact I mentioned at the time that I thought Cardno's should engage him just to do the speeches not knowing that I was about to be had. Hilarious!

---

I admit I was taken in for the first twenty minutes of Vladimir's speech. I had recently attended a lunch with a consortium operating in Kazakhstan. It was therefore eminently more believable that you would have merged with a Russian operation. London, New York, Paris, Tokyo, Wollongong. There is implicit trust in General Cosgrove. We'd have to abandon the two party system if he ran for office.

---

My suspicions were aroused when, as you would appreciate, it is very hard to tell so many jokes in such a short period of time and maintain interest. That level of rapport and comedic value would be unlikely source in a former Russian General. But still the suspension of disbelief was maintained as he had General Cosgrove's endorsement. I bought it.

---

You beat me to it!!- thanks for a most entertaining evening-a great idea and most convincingly presented!

---

Thank you very much for what was one of the most entertaining evenings that I have had in many years. I am happy to say that I was completely suckered!

I have no idea how you managed to come up with a 'partner's' name (Slavdanko) which generates no hits on Google!

---

Just finished a meeting with Brian Reeves and told him I am very proud of the fact that I was NOT HAD in relation to the other general. Having known Cardno for many years and watched the acquisition of numerous quality organisations I knew that the name 'tomeetyou' no matter how spelt could only mean one thing. Shonk! But superbly executed and a great deal of fun. I especially liked the new meaning of my MBA - married but available. Thanks again.

---

The evening was very entertaining & I certainly enjoyed 'Vladimir' & 'Cardno Slavdanko' during a pleasant meal & good company

---

I had been slightly worried that you had lost the plot going into Russia, as friend of mine who works for James Packer spent about 2 years in Moscow trying to get a Casino going with the support of the Mayor of Moscow who unfortunately made a play for Putin's job and went down badly, so Packers aspirations fell as well.

From the stories I heard It was not a climate that was conducive to honest business practices.

So as your bogus General talked more and his full grasp of english and Australian humour became more evident, I began to wonder what was going on, but Peter Cosgrove's endorsement made it hard to not be convinced this was a genuine situation. It shows how we are influenced by having a perception of a person's integrity lending validity to a situation. Maybe I should be a bit more circumspect about Peter in the future.

---

I have to say that while the Russian General was the best laugh I have had in years, and by far the most entertaining aspect of any corporate dinner I have attended, I am left with a slight disappointment – no Cardno Slavdanko?

---

Even with a few minor hints, like Peter's "Vladimir has a strange sense of humour" and his "surname", General (ret'd) Tometchu certainly had the room in the palm of his hands, hooks lines and sinkers (the lines being diverging and converging parallel lines). The combination of excellent tucker (trying to describe it to my wife, Sally, did not do it justice, I know), good company (in two senses of the word), wonderful speeches (Peter and Andrew), performances (Tometchu) and of course, a great MC, made the night one that will not be forgotten by those lucky enough to attend.

---

I'm still laughing about the Russian General. He had everyone right in, including me. I only had a bit of a question mark when he said he worked with Peter Cosgrove in East Timor. (I was not aware of any Russians being involved.) Anyway well done. Those nights are solid gold for retaining and growing client base.

---

I'm sure that most, if not all, were fooled by the General (ret'd) and judging by the continuous laughter throughout his presentation, everyone was thrilled.

Hello Rodney,

Many thanks for your appearance at our Board meeting on Monday. A good suggestion from my Dean, good luck that you were available at such short notice and a nice touch that the VC was happy to support the event.

I've had a very varied feedback from absolute enjoyment to some anger with me for 'setting up' the RQF -- with hindsight, may be a topic too close to the bone for some, so serious it should never be trifled with. However, as another colleague has said I should have had a little sign "Lighten-up". So all in all a positive in-put to our last formal meeting of the year and my last as Presiding Member.

Again my thanks and hoping you have a good summer break.

Regards

Peter

Dear Professor Hilmer,

I should like to put on record---and thought you might be pleased to learn---that Rodney Marks made a most significant contribution to the celebrations held in the Webster Building last Wednesday (28 November) by the School of English, Media & Performing Arts to farewell Professor Philip Bell. (It was an occasion which I helped organise and at which I acted as MC.) Rodney's hilarious contribution was the fourth and climactic speech, on behalf of the Administration in general and Human Resources in particular, following three speeches by colleagues within the School. I have heard similarly glowing reports of his contribution to University life over the past year. It was an inspired decision to appoint him, and I urge that his contract be renewed for 2008!

I received many enthusiastically positive comments on your lecture and I am very happy that we bumped into each other and decided to go forward with the idea. Dear Fred,

The Artist in Residence of University of New South Wales, "Visiting Professor" Rodney Marks, addressed our staff (from the Institute for Eye Research, Vision CRC, International Centre for Eyecare Education and Postgrads and some staff from the School of Optometry and Vision Science) at our Staff Meeting last Friday 25 May 2007 as Prof Len Schappe. (Lenschapp?)

He was an absolute hoot. He had the staff in two minds whether as the new Deputy Vice Chancellor for Strategy, he was an eccentric ex-English professor that was hired for his elocutionary and economic brilliance or whether the University had gone 'trotto'.  
He was an absolute hoot. He had the staff in two minds whether as the new Deputy Vice Chancellor for Strategy, he was an eccentric ex-English professor that was hired for his elocutionary and economic brilliance or whether the University had gone 'trotto'.

In these serious times he was an outstanding contribution to sanity and insanity, fun and frolic, levity and learning. The staff loved it.

When he got stuck into me and our 'Unilove' project (i.e. making UNSW love us and us love the UNSW) for being sycophantic, hypocritical, bottom feeders that raped and pillaged the University at every turn, i.e. not giving the University a big enough slice of the cake (not true of course), or for me being oversized for my height and overeducated for my IQ - the staff did not know whether to laugh or die suppressing their laughter. Several had to leave the room for fear of a Monty Python-like explosion.

He was in a word, wonderful.

I wanted you to know how appreciative we all are of this innovative and thoroughly uplifting initiative. It was the perfect way to end the working week.

Thanks from all of us,

Brien Holden, Scientia Professor

Dear Professor Hilmer

I am sending you this email to provide some feedback on the success of having Rodney Marks address my students last week.

Rodney addressed my postgraduate class on Policy Analysis. He addressed the students as Dr Beau Rocraci, President, Cabinet Secretariat, European Parliament, Brussels. The students were advised in advance that he was visiting Australia and through the university was able to speak to a small number of students.

Rodney put on a great performance. It was almost some 30 minutes into his performance before some students pick up that this was a hoax. Rodney very cleverly poked fun at the students, the staff and the broader process of public policy and the institutions involved. When the hoax was revealed the class broke down with laughter. Everyone thoroughly enjoyed the evening.

Rodney then engaged with the students in a debrief discussion where we examined the need to seriously question how people present their case, probe for evidence etc.

It was an extremely valuable and enjoyable learning experience for students. For postgraduate students, who have all spent a full day at work before coming to class, they found the experience stimulating and worthwhile.

The university's support for humour in the teaching process has certainly proved to be appreciated by the students and I hope the university continues to support such innovative programs.

Thank you so much for your performance yesterday. It was GREAT - to coin an old phrase (from people of my era) "you laid 'em in the aisles". I am quite sure you made graduation for all involved a most memorable and enjoyable experience.

By the way, I am not normally so slow on the uptake when you tried to scare me with the "Power Point" moment. Next time, I shall be prepared. I'll have to keep my ear to the ground and listen for other characters, alias Rodney Marks, as they appear on campus.

Debra Thompson - Manager, Ceremonies Graduations and Examinations, Student Administration and Records

I was speaking to a girlfriend yesterday (film producer not academic) who attended her daughter's graduation the previous day and she raved about the the graduation speech you gave. My Dear Vice Chancellor

I thought you might like some feedback on students' reactions to Rodney.

I invited Rodney to be an "expert guest" in my 4th year honours and Masters class in the actuarial program last night.

The course is about risk management in financial institutions and we also try to get students as part of the course to think for themselves and just not follow accepted practice without reasonable reflection.

The purpose of having Rodney was therefore to:

- (i) drive home that experts are not always what they appear to be
- (ii) the class is about learning in a fun environment

As you can see from the (unsolicited) email below that reflects the majority of students' views (but possibly not the few that got taken in completely), we achieved the objectives

Thanks for providing Rodney

[Rodney Marks] aka Rob Deklyent was a fabulous and hilarious treat. I think he more than adequately was able to demonstrate (live) the ability of audiences

(even 'smart' professionals like us) to be overtaken by hollowness parading as intellectualism.

I was quite concerned that even after Rob had gotten well into his post-modern deconstructions and waxing ever the more eloquently, that there were still students that were unsuspecting of the stunt being pulled. I must admit, I was drawn in for about the first 2 mins, after which I suspected either a pompous fool presenting or some cruel joke. As you had selected this speaker, I almost ruled out the former.

Didn't realise that I was watching Tuesday Night Comedy Live @ UNSW.

Very good! Look forward to the rest of the year and am happy that I returned

to my alma mater to do Part II study.

You seem to have created a lasting memory for those that were present. I think that the timing of your session (and timing is everything) was perfect given the audience had been through 3+ hours of fairly heavy content prior to you. I think that some light relief to get the message over is certainly an alternative way of getting engagement that often sticks in the minds of those receiving the message. The audience certainly liked the comedy of your session - pity we didn't have slightly longer - however that was not within our control

I loved your talk, especially the interaction with the questioners and afterwards as by then I think they had all realised it was a scam and were right into the swing of it. I must admit I was a bit nervous for a while as I think many of them wouldn't have understood most of the words you were using at the start but the presentation evolved nicely into the more obviously outrageous. It was a great light touch amidst the serious advice and hopefully made them feel that they were out of the school milieu and entering one which includes a bit of intellectual sophistication and wit

I was in Port Macquarie a few days ago, meeting with local government and local business folk, but all they wanted to talk about was Herman.

They told me, in fact, that Herman is mostly what they've talked about at their meetings since that night. Amusingly, apart from being impressed by Herman's intellect and insightful comments, they also told me that they thought "things like that" (the hoax) only happened in sinful places like Sydney and Melbourne and were really chuffed that it happened in Port Macquarie. So, it seems that Herman bought big city sin to an innocent holiday spot

SHL Australia engaged Rodney to act as our 'new equity parnter' at our National Staff Conference. In this role, Rodney provided the final closing speech of the day to all of the SHL team. Rodney played the role superbly, despite presenting to a highly evaluative and discerning audience. It was extremely entertaining to watch the reaction of my team to Rodney's speech and even more so when they finally realised it was a hoax. My team thought he was fantastic and he was the talking point over the conference dinner. I would definitely recommend Rodney for similar corporate hoaxes, and have already done so to a number of colleagues

**Diners Club, MCG (Melbourne Cricket Ground), Melbourne, 18/05/2006**

I just wanted to thank you again for your performance at the Diners Club Dinner on Thursday night. Diners are raving about it and it was great for me to finally see you in action. Well done.

Danielle Bleazby, Event Producer - Peter Jones Special Events

On behalf of the Diners Club team I would like to thank you for your contribution to our 50th Anniversary event on Thursday night. For most guests, your speech stands out as the highlight of the event. For those still not in on the hoax, they feel privileged that you made the effort to come 'Down Under' for our celebration! Your preparation, as well as your ability to stay in character throughout the evening and glean details from guests to include in your presentation, was much admired and appreciated.

Michaela Bingham, Marketing - Diners Club

It was a great night - people are still raving about your speech - some still believe it is true (which is a worry)! Thank you for making the night such a success

James Atkins, General Manager, Consumer & Marketing - Diners Club Australia

---

**Australian Graduate School of Management (AGSM), AGSM, Sydney, 6/04/2006**

It was wonderful to have the honour of yourself as yourself and in full flower of your eloquence and wit last night. It made a memorable night into a true work of art -- thank you, again and again. You were so exact in your targets and creations you will have people talking for years!

Dr Jessica Milner Davis

---

**Caltex, Restaurant - Deep Blue, Sydney, 30/03/2006**

Everyone thoroughly enjoyed your presentation. My boss/client Simon (the CFO) was especially taken with it.

Heather Schoenheimer - Management Consultant

---

**Narellan Pools, Mercure Sydney Airport, Sydney, 24/03/2006**

I wanted to thank you very much for the effort and clever tactics you played on the people involved in your presentation. I am probably going to have to pay for it for a long time. Our Financial Controller, Joe, has said to me personally that I should watch my back! So I guess as you can see you have certainly achieved what you set out to do, so from me and our franchisees, well done.

I hope we can use you and your services again some day, we enjoyed you, and should you require a referral please do not hesitate to let them contact me.

Guy Bright - National Sales Manager

---

**Investec, Le Meridien, Mauritius, , 9/03/2006**

We have had such positive feedback from the delegates and, just this morning I gave your email address to our Investment Banking team who are wanting to invite you to SA (not quite as exotic as Mauritius but we try!)

Thanks once again for spending time with us and keeping our delegates entertained - they keep asking me what your real name is so I'm referring them to your website so they can make up their own minds!

. . .

Rodney had everyone very puzzled before they were in stitches with laughing so much.

Tanya Reid, Professional Conference Organiser, Investec - South Africa

**HomeSide Lending, Rydges North Sydney, Sydney, 2/03/2006**

**Merely Players, Hotel - Art House, Sydney, 27/02/2006**

Hey Rodney, thank you so much for 'leaping in' last night. It was great to see such a wonderful and supremely professional performer at work, and it was appreciated by everyone who came, as well as myself.

Until some other time, keep smiling,

Bryan Cutts, Artistic Director, [www.merelyplayers.com.au](http://www.merelyplayers.com.au), Creative Industry Night #10

**RSA Security, Sheraton Mirage - Gold Coast, Gold Coast, 10/02/2006**

I saw your preso (presentation) up in QLD as part of the Express Data Kick-Off. I was in bloody stitches.

Robert Russo, Express Data, Adelaide

**IAG, Australian Graduate School of Police Management, Sydney, 17/01/2006**

I work for Nola Watson at IAG and attended the Quarrantine station dinner on Tuesday night....thank you so much, I don't think I've stopped laughing just yet. There was another round of complete hysterics in the office late today when we found out you'd convinced Ben you were interested in chaos theory & gaming theory!!

I've been an intelligence analyst for about 5 years, the first few with Nola at NSW Police prior to IAG. Everything you did, right down to your shirt and tie, and absolutely spot on for European law enforcement. To my unending embarrassment, I was more prepared to believe that you were Europol than a comedian, even when we were told. How did you know to paste Interpol?

Thanks for a great laugh - is it possible to see you at non-corporate functions?

Lisa Young - Intelligence Analyst

It was a great success. Thank you for a first rate performance.

From a learning perspective, it proved quite insightful. As you know, one of the fastest growing crimes is identity theft. This is where one person simply takes over the persona of another by obtaining a small amount of key personal bio details. As we reflected on your presentation, people realised just how easily this could be done. I think I may generated a degree of health skepticism in the group.

regards

Nola Watson - Head, Corporate Risk Services

You had me in stiches. Everyone I spoke to thoroughly enjoyed your 'presentation', notwithstanding the lack of media skills of Dep Director Triage

George Karagiannakis - National Manager, Business Support, Fraud & Security Risk

Everyone loved the playing cards

Rebecca Clemson - Executive Assistant to Chief Executive, George Weston Foods - Baking Division

**Sidesplitters, Surfers Paradise RSL, Regional Qld, 6/12/2005**

I well remember your brilliant performance at Sidesplitters as one of our unpopular local councillors on the issue of our free parking opposite the Surfers RSL.

We "hated" you which made your performance even more credible.

Anytime you're around our way, you're very welcome to come and "chew the fat" with us.

Ian Franklin - committee member - in a letter more than six years' later: 16 January 2012!

**Sailability, Manly Yacht Club, Sydney, 10/11/2005**

I'd like to give you our heartfelt gratitude for presenting Admiral "Rusty Stern" to our fund raising dinner last night. You had the audience of a hundred people roaring with laughter, setting the mood for an absolutely wonderful evening and a most successful auction which followed a little later. It would seem that there is a magical connection between people opening their mouths to laugh and opening their wallets to bid.

Bob Ronai, Public Relations Officer

---

**Northern Territory Police, Holiday Inn Esplanade, Darwin, 5/10/2005**

Your act on Wednesday night definitely entertained all those at the dinner. You have an amazing knack of playing with words. Your compilation of strategic discussion was spot on. We had delegates talking about you all day Thursday, laughing etc. It is just what they needed after a couple of days of serious discussion.

You obviously do an amazing job if you have clients laughing up to a week after the event!

Olivia Paterson, Project Coordinator  
9th National Chemical Diversion Congress

---

**Conrad Treasury Brisbane, Hyatt Regency Coolum, Sunshine Coast, 29/09/2005**

Thanks again for your time at the Executive Retreat. The team had a fabulous time at dinner - and I believe they are still chatting about your performance which is great.

I know the Ray White team will be in for an entertaining lunch and will enjoy your hoax as much as we did. I look forward to talking with you again in the future.

Hi Pauli (Rodney)

Quite frankly, you were FANTASTIC. Your assistance helped the Foundation raise over \$100,000. You did a great job Rodney, and had Mr. (Barry) O'Farrel (the Deputy Leader of the NSW Opposition, and the host of the event) in stitches.

Thanks a million for all your help!! See you soon - Thanks again

Geoff Wolf, Committee Member

The feed-back regarding your brilliant performance has been amazing. Everyone is speaking about you!! Everyone to whom we have spoken has been glowing in their praise - quoting parts of your performance and laughing all over again. There were people with the tears rolling down their faces from laughter

**Goodman Fielder, Hawkesbury Lodge & Rum Corps Convention Centre, Sydney, 20/05/2005**

You did a great job. Towards the end of your 'informative' session some of my more senior colleagues were feeling quite uncomfortable that others were openly laughing at your highly cerebral turn of phrase. It seems we have some work to do ...

I have attached some Office humour that may come in handy

Thank you so much for the awesome presentation and MC work. It was so much fun to catch up with you. As one of your characters might put it: The experience was tantamount to a plethora of sails festooning the glittering horizon of possibilities ergo the raising of a Titanic behemoth of felicitousness and a preponderance of glad tidings and camaraderie

Thank you for appearing and entertaining our colleagues and guests. The feedback has been wonderful.

I watched the audience, bearing in mind your words re when people get it! You were right, the looks on peoples faces were varied throughout and all of a sudden it 'clicked with them'. The stories have been running hot how someone next to someone 'still thought the guy was for real', etc, etc

Any way, thanks again and I hope we catch up again soon

On behalf of all of us who were involved in the planning for the occasion, and also on behalf of all of those who enjoyed evening, (and I think that just about means all of those who were present) thank you for your contribution and humorous entertainment. One Rotarian came to me after you finished and said that he got a lot from your wisdom, and in particular, the final thought you left with us all!

And Sir Gus Nossal told me he would gladly be a stooge for you whenever he was invited!

**Australian Steel Institute, Sebel Pier One, Sydney, 9/12/2004**

Thank you for your wonderful hoax at our ASI luncheon yesterday. I think you had quite a few guests fooled for some time before the penny dropped. This provided an excellent entertainment with lots of laughs and to conclude our years busy program - I had a number of people come up to me later in the day and comment on how much they enjoyed the hoax and could not believe the wording you knitted together. I timed the car carrier ship perfectly didn't!! This added that extra unplanned touch to the comical hoax - I will have to pass a note to Keith 'K' on the funnel as a thank you for his question!

On behalf (or more like be-threequarters, or maybe even all) of NSANZ, please accept the grateful thanks of the most appreciative audience who enjoyed your keynote speech at Wairakei Resort last Saturday evening. Only a man of effluence and extreme verbiology, such as your good self, could have rendered your important topic so magnificently impenetrable, nay, even impermeable - so much so that the dumbkops around the groaning tables had to work very hard to absorb your message at the same time as pushing their envelopes, walking their talks, measuring their outputs, maximising their opportunities, downsizing their middle managements and leveraging their glasses so as to be able to drink from them. You were the cream in our coffee, the milk in our tea, the gas in our champagne and the highlight of our evening.

Oh, and that other bloke who was MC-ing was extra good too! Thank you so much for sharing your talents with us.

Lindsey Dawson  
President, NSA Auckland

So much to thank you for. It was such a privilege to meet you, to hear you speak, to collapse with all consuming laughter. What a gem you are! ... So thank you very, very much. Your contribution was very valuable and I do thank you for your time and talent.

Wendy Betteridge

Rodney, it was fantastic seeing you perform at the Wairakei conference. Having said that, at one stage my head was aching so much from the laughter that I thought I might be suffering some sort of cerebral haemorrhage - but at least I would have died happy.

We really got great value out of your session and presentation to us. The level of professionalism you showed in designing and setting up the session was excellent and it showed in the final product. Having an irreverant but pointed look at how we operate and getting the whole scenario linked in was a great focus for self reflection, irreverance and just plain fun for the team ... Really enjoyed by everyone in the team including our Senior Execs from the US.

Personally I thought it was great and I had a pretty good laugh too - even at my own expense at times.

Russ Whitley  
Northern Region Manager

**Cleanaway, Sheraton Four Points, Sydney, 22/10/2003**

It was fantastic! I can't believe that I put myself in a position to follow you in the programme. You were an impossible act to follow.

Everyone is still talking about Dr Noel. The rest of the conference went very well. A great deal of our success was balancing fun with the conference objectives. Your session certainly kick started the entire group by getting everyone in the mood to laugh and participate.

However, I must admit they were frozen with fear during your Q & A session. Take that as a compliment to your quick wit.

If I come across you again while you are in character, your secret will be safe with me. In fact, if you need me to lie, I will be happy to do so. My integrity has already been called into question following the introduction I gave you. People now think that lying comes too easily for me ... Just as well I am in Sales

**Hyperion Solutions, Manly Pacific Sydney, Sydney, 15/10/2003**

I wanted to take the opportunity to commend you on the excellent presentation you made as the world renowned Dr Edward de Bono at the Hyperion Annual User Conference on October 15. The content and style of the presentation suggest a significant amount of research prior to your performance and we thank you wholeheartedly for your efforts.

Given that 90% of the audience still believe you are Edward de Bono (they firmly believe that Edward announced he was the Sydney comedian, Rodney Marks, as an anti joke!!) indicates that your performance was extremely convincing and entertaining.

Many, many thanks,

Russell Evans, Director of Sales and Marketing.

I hear you were a huge success - even signing books. Well done Edward.

Allen Smith, National Sales Manager, Volante

---

**Mirvac Hotels, Restaurant - Robert's, Regional NSW, 2/10/2003**

"Edward",

I think the Thursday evening was a highlight enjoyed by all, but in particular Greg and Stuart who were awarded the "gullible gong" for being enthralled by you during the pre-dinner drinks. The fact that it was kept a secret for so long was also great.

Many thanks from the "anal retentive" one; if in North Sydney call in for a coffee.

You successfully set the tone for the conference and it has been rated as one of our best.

David Dunn  
National Managing Partner - Financial Advisory Services

---

**McDonald's Family Restaurants, Hydro Majestic, Regional NSW, 11/09/2003**

Thanks for ... the great job you did last week in the mountains. The group spoke about it into the early hours. I think half of them were stunned by what you were saying, another quarter were simply embarrassed about how Charlie could possibly have invited you to talk to us, and the final quarter are still wondering who the hell you were!

Once again a great job professionally researched and delivered with aplomb!

Nick Rodd  
National Marketing Manager

---

**Ridley, Tokar Estate, Regional Vic, 5/03/2003**

It was a great night and is still being talked about by those who were conned (most of the attendees).

Thanks again, Rodney, for being part of our company, and I think you have made a few of us have a close look at how we behave as a management team, as the next day saw a few home truths come to the surface.

Malcolm Gresswell, National Operations Manager

---

**Volante Systems, Offices of Volante Systems, Sydney, 18/12/2002**

Allen Smith, National Sales Manager

---

**Cowley Hearn, Athol Hall, in Ashton Park, Sydney, 12/12/2002**

Well-received, very amusing - think my chances of pulling off another hoax in the future are zero. Although - some of them still think you're the new accountant!

Michael Beilby, Managing Director

It was a huge success, you really made the night - and contributed to my success!

Karen Wilson, Human Resources Manager

---

**The Cargo Club, Roselyn Court, Melbourne, 5/12/2002**

Thanks for yesterday. You were certainly the talk of the party. Do you realise the "cylinder controller" from Air Liquide had no idea you were other than the Managing Director from Kuehne & Nagel? Our friend "Mr King" down the back is the most obnoxious person - I won't begin to describe - so everyone agreed it (the insult comedy directed at him) couldn't have happened to a better person.

It was great to see Arthur enjoy himself so much. He has a pretty tough time.

Ruth Giddings, Event Convenor

---

**Temple Emanuel North Shore, University of Sydney, Sydney, 27/11/2002**

Ben Marosszeky, McGregors Public Relations

---

**Holman Webb, La Toque, Sydney, 28/10/2002**

Thank you for making the night such a success.

Roger Cornforth, Partner

It was such fun. And you'll be pleased to learn that we are still enjoying the experience and laughing about the night. The partners played on the hoax with those two partners who didn't attend, but the new appointment (of Rodney as the Chief Executive) was causing such an upset that (we) felt obliged to send around an email announcing Guy Dingkat's return to Atlanta!

What more could we have asked for ...

Jane Polkinghorne, Administration Manager

---

Paul Wood, Special School Principal and Convenor

---

**EKH Design, The Establishment, Sydney, 17/10/2002**

Everyone thought you were brilliant. So much so that a few people still laboured under the illusion that you are indeed a client of ours. (Mind you, those people weren't the brightest crayons in the box!)

A couple of companies have asked for your details, so you should be getting further work.

Thanks for your terrific performance.

Alison Hulett, Partner

---

**Great Synagogue, Great Synagogue, Sydney, 9/10/2002**

Graham Bradley, Managing Director

---

**Manly-Warringah Division of General Practitioners, Newport Mirage, Sydney, 1/11/2001**

. . . A most entertaining speaker. If laughter is the best medicine, all present received an overdose.

Prof. Francois Edeot [Rodney] took delight in roasting (the) chairman, past chairman, executive officer, the area health CEO, the hospital executive and any other unsuspecting member who crossed his path. At the conclusion of his very witty and funny presentation, Prof. Edeot confessed . . . That he was not a Frencg Professor of Psychiatry. Many GPs were disappointed that they would be unable to refer patients.

David Jeffrey, Managing Director - Asia Pacific

---

**Coal & Allied, Sheraton Four Points, Sydney, 26/03/2001**

Must say I enjoyed your performance. The funniest part was that most of our British guests still thought that you were "real" with a strange sense of humour, and they had to be told that you are a Comedian. Then they all wanted a chance to talk to you so that they could relay their enjoyment to you personally ... a number of them also wanted to know if they could obtain a copy of the script.

Louise Burton, Personal Assistant to the General Manager

---

**Abbotsleigh School for Girls, Rafferty's Resort, Regional NSW, 24/03/2001**

... a lot of fun. Thanks so much for bringing exactly what we needed.

Judith Wheeldon, Headmistress

---

**IDRC Corporate Real Estate, ANA Hotel Sydney, Sydney, 22/03/2001**

We had to laugh at the evaluations. I've never seen evaluations filled in with all "0s" for relevance and quality of content, etc., yet get a top rating overall score. To quote a few of the general comments, your presentation was 'visionary', 'humorous', 'hugely entertaining' and 'clever'. I have to admit I was a little worried at one comment that said you were the 'first speaker that made any sense'.

John and Karen Fox, Regional Director and ANZ Operations Manager

Graeme Orr, Chief Executive

---

**Yandell Wright Stell - lawyers, Aanuka Beach Resort, Regional NSW, 4/11/2000**

However, the credit is all yours. Thank you again.

---

**Macquarie Dictionary, Macquarie University, Sydney, 26/08/1999**

Susan Butler, Executive Editor and Publisher

---

**Compaq, Hotel - The Shark Bar, Sydney, 12/08/1999**

Thanks once again for a brilliant performance on Thursday night. It was a successful evening and much fun was had by all. I am still hearing stories of people within the office saying that our new CEO [Rodney] is a really funny character - it's a bit of a worry!

Wanita Filby, Personal Assistant to the General Manager, Business & Consumer

---

**Andersen Consulting, Millennium Hotel, Kings Cross, Sydney, 3/08/1999**

Your presentation went down very well, although some still think you were just a very rude psychologist. ... One of the US based senior partners commented to me yesterday that it was the best researched AC specific piece of comedy he had ever seen. It was all very amusing.

Keith Westley, Senior Consultant

---

**Sara Lee, Gold Coast International, Gold Coast, 29/07/1999**

**Chatswood Chamber of Commerce, Chatswood Club, Sydney, 8/12/1998**

What a wonderful luncheon on which to end the year!

It is really nice to be able to sit back and relax, especially at this time of the year, and to be thoroughly entertained by such a professional.

Speaking to members and guests afterwards it was apparent that everyone thoroughly enjoyed themselves. It is always a very positive sign when our people linger after the meeting to enjoy the atmosphere.

Barbara McCarthy, President

**University of Wollongong, University of Wollongong, Regional NSW, 9/09/1998**

The feedback has been overwhelmingly positive from all sections of the University, and many are still asking whether you are really the Pro Vice-Chancellor (Infrastructure).

Your skill and intelligent humour worked extremely well with what is normally a difficult and highly critical audience.

Professor Sharon Bell, Dean - Faculty of Creative Arts

---

**Australian Institute of Company Directors, Tattersalls Club, Brisbane, Brisbane, 25/08/1998**

Tuesday was an outstanding exhibition of your craft. You misled and deceived 160 of Queensland's finest in a superlative display of your expertise and your great skill as an actor. At times the audience was unaware as to whether or not they should laugh or be insulted. Indeed many did both at the same time! Thank you for your wonderful performance.

Darryl McDonough, Immediate Past President

**Mainland Dairies, Peppers Anchorage, Port Stephens, Regional NSW, 28/01/1998**

You certainly intimidated some during the day, entertained all that night and fooled just a few! There are still a couple of confused believers amongst us, and of course you were mentioned in dispatches to our parent company, the New Zealand Dairy Board.

It was a very enjoyable day and night, with nothing but positive comments about your work with us and the character you played.

Donna Williams, National Sales Manager

**Serco - outsourcing and facilities management, Kirkton Park, Regional NSW, 20/12/1997**

Thanks for performing last week. Everyone very much enjoyed the evening.

Stephen Ell, Chief Executive

**Australia Israel Chamber of Commerce, Hilton Sydney, Sydney, 18/11/1997**

Your performance was brilliant, both comical and clever, and judging from the way you were received, I think everyone present agreed with me. You managed to capture both the essence and the wit of the Chamber and those involved with it, and your performance complemented the formality of the evening perfectly.

Despite the fact that the "real Rodney" was known to a few people in the room, even they did not recognise you until well into your "campaign speech"!

I definitely will recommend you to my colleagues and please feel free to use this letter as a reference.

John Weiss, Executive Director

**Saint Aloysius' College, Sydney, Saint Aloysius' College, Sydney, 1/11/1997**

Grant McMillan, Convenor - sportsman's and co-curricular fundraising dinner

Jessica Milner Davis, President

**Currency Press, Actors' Centre, Sydney, 27/09/1996**

It was a great performance you gave at our 25th anniversary party. It is something our authors, particularly, will never forget; and I'm sure it had the effect we were seeking, to remind our colleagues in the industry that Currency is a small business, not a cultural institution.

The effects are reverberating. The 7.30 Report broadcast succeeded in hoaxing another lot of people; and even today our accountant, Brendan O'Connell was anxiously asking to be reassured that we won't take steps towards selling the company without consulting him.

You leave a lot of worried people behind you.

So thank you again for your care and skill.

Katharine Brisbane, Publisher and Chair

Straw poll of the audience indicated - 191 for, 1 still confused and thinks you are French, and 1 hates arrogant people. All in all, it was a great and successful night.

John Erickson, Chairman

---

**Association for Disability Employment, Placement and Training (ADEPT), St George Leagues Club, Sydney, 1/12/1995**

Rodney Marks attended the Christmas Luncheon for ADEPT, posing as Beau Rocracy, the Principal Private Secretary to the Minister for Human Services and Health, Carmen Lawrence. He joined the Directors during lunch, listening most attentively while they expounded about the quality of their services, the complexity of Government policy and their concern for the Minister. He even took notes!

After skillfully deflecting questions and drawing them even further into the hoax with encouraging questions of his own, for around two hours, he then addressed the Board. His presentation was absolutely fantastic, utilising jargon picked up through my briefing as well as from the Directors themselves. He proceeded to bucket the whole disability services industry, particularly the management structure with their excessively high wages. The detail he went into on the particular Government policy being discussed at present was very clever and was the cause of considerable bewilderment among the Directors and the Department NSW Manager. In fact, she was so furious at one point she was madly flicking through the government phone list, looking for "this maniac" so she could report him!!!

Once the hoax was exposed, the Directors and the Department Manager could see the humour in it and continued to laugh and discuss the performance for hours afterwards.

D K Byrne, Executive Officer, Disability Council of NSW

**Australian Graduate School of Management (AGSM), AGSM, Sydney, 22/05/1995**

**National Mutual, Hilton on the Park, Melbourne, Melbourne, 30/04/1995**

Please thank Dr Frederic Lephroh [Rodney] for his most timely, misleading and most successful presentation to our Insurance Operations Workshop last week.

The people who took copious notes of your most professional presentation of the AXA long-term views, have still not forgiven you. Nor has the person who thought he had successfully completed the groundwork for a trip to Paris.

The threatened retribution towards the organisers has not yet arrived! To ensure others are in the 'hot' seat, I am passing on your business card to business colleagues and acquaintances.

One last request, you'll recall that we spoke about copy of your slides. Please don't forget to send me a list of the words used.

Ron Wodson, Divisional Manager - Marketing and Planning

**Harvard University - 12 performances as artist in residence, January 1995, Harvard University, Cambridge/Boston, 1/01/1995**

We want to thank you for your splendid appearance at a dinner of our Owner/President Management group last week. You could not have been more convincing - or controversial - as Mortimer Gage, our new Professor of Organizational Behavior. You did a superb job of fooling a group of experienced managers not easily misled, and we all enjoyed the experience greatly.

Norman berg, Professor of Business Administration - Faculty Chairman - Owner/President Management Program and 19 participants

---

**Sydney Weekly - newspaper, Australian Museum, Sydney, Sydney, 11/12/1994**

I would like to express my warm appreciation to you for your excellent performance as Joe King. . . Not only did you fool almost everyone with your hoax, you did so in great style, and with a level of sophistication that was not expected. . . A number of people commented to me afterwards that your depiction and script were 'brilliant'.

Mark Chipperfield, Contributing Editor

---

**Graduate Management Association of Australia, Tattersalls Club, Elizabeth Street, Sydney, Sydney, 8/12/1994**

You did a great job. You actually managed to get a laugh from some of our members which, given that they are MBAs, is quite a feat in itself. The feedback from everyone I have spoken to was very good.

Ruth Appleby, Newcastle Visitor and Convention Bureau

---

**Morgan and Banks, Hyatt on Collins, Melbourne, 6/11/1994**

Thanks for the fantastic session last Sunday at our National Conference.

Feedback has been received from all States, and the general consensus is that you had 'fooled them all'. However, even when they all realised that you were not who they thought you were, they all agreed that you still delivered a very powerful session, with a strong message.

Geoff Officer, Director - Human Resources

---

**Association of Children's Welfare Agencies, Swiss-Grand Hotel, Sydney, 13/09/1994**

While you may have 'laid to rest' Professor Cecil Temik, I am sure he will remain in the memories of many delegates for some time and bring a smile to their faces when recalled ... I personally was pleased to have at last 'taken the risk' on corporate comedians and employed you. Thank you for reassuring me and for bringing Cec to us from Boston.

Sharyn Low, Conference Organiser

---

**Sydney on Sale, Australian Jockey Club Convention Centre Randwick, Sydney, 17/08/1994**

After operating for twenty years, how was the Sydney Opera House going to make an impact on the somewhat jaded audience that would attend the launch of the 20th birthday celebrations?

The politicians, the arts media and the leaders in the performing arts industry . . . were all suitably surprised and entertained, when as a world leader in architecture, you took the stage and explained how we intended to "modernise the old-fashioned Utzon-designed, beginning with flattening the roof".

Deborah Cartwright, Marketing and Media Manager

---

**Reed Business Publishing (Thomson Business Publishing), Jamberoo Valley Lodge, Regional NSW, 24/06/1994**

You were undoubtedly the hit of the conference. You made us squirm, you made us laugh and you made us think about the way we go about business - all in all, a very successful enterprise! You received more 'better than sex' ratings than any other speaker on our post-seminar survey!

Ray Welling, Group General Manager - Editorial

---

**Sydney Convention and Exhibition Centre, Sydney Convention and Exhibition Centre, Sydney, 16/06/1994**

Your presentation was excellent, revealing the scope that humour can add to a meeting. Judging from all the feedback from those attending, your efforts greatly contributed to the success of the evening.

Cheryl Heley, Sales Development Manager

**Federal Airports Corporation - National Finance, Swiss-Grand Hotel, Sydney, 16/05/1994**

... your material was the topic of discussion for the remainder of proceedings ... the Corporation's General Manager - Finance & Planning was very pleased with the evening and sends his congratulations on an excellent hoax.

I look forward to renewing our acquaintance in similar jovial circumstances.

Stephen Cordaiy, Manager - Corporate Financial Services

---

**Dexion - storage systems, ANA Hotel Sydney, Sydney, 30/04/1994**

I wish to formally extend to you my warmest congratulations and gratitude for a most professional and successful performance at our recent Dealer Conference. The feedback was fantastic and my objective of getting people out of their chairs and encouraging a contribution to the proceedings was certainly achieved.

I have to admit to having sweaty palms throughout most of your session, but I guess that only serves to confirm how convincing you were.

M A Isbell, General Manager, Storage & Materials Handling

---

**Graphics Arts Services Association of Australia (GASAA), Fijian Resort, , 25/04/1994**

Peter Parkinson, National Sales Manager

---

**Australian Newsprint Mills, Winery at Rutherglen, Regional Vic, 14/03/1994**

... we did not anticipate the level to which the material would be so well researched that it would take the audience so long to realise they were victims of a hoax.

Your approach of having strong audience participation was also very well received.

Joe Tascone, Technical Service Manager

**Cathay Pacific Airways, Cathay Pacific Airways Limited, Sydney, 16/02/1994**

You were fabulous - feedback has been sensational and I thank you for giving such a thoroughly prepared presentation. The "Business Today" Program who were filming our meeting gave you rave reviews as did the hundred plus members and guests in attendance.

Robyn Henderson, NSW Managing Co-ordinator

---

**Computervision, Museum of Contemporary Art, Sydney, 31/01/1994**

Thank you for a most enjoyable hoax last Monday. Dr Artur Pfischel [Rodney], explainer of the avante garde, was a great success from his most informative tours of the Andy Warhol exhibition, to his speech on how the artists could help those at Computervision. We watched as the audience changed from "Oh no, not another presentation", to astonishment at being told their lack of artistic appreciation, to roars of laughter as each of the unsuspecting members of the audience were examined.

Many of our people said that your appearance was the best part of the day, one even said that he could have listened to you all night! You pitched your address perfectly to the audience and the day concluded on a very high note.

Ann Levings, Marketing Communications

Sam and Pam Leon

---

**Australian Computer Society, ANA Hotel Sydney, Sydney, 1/01/1994**

The feedback from the whole day has been excellent and greatly assisted by the humour and wit that you injected, leaving everyone on a high at the end of the day. ... What fun - you really got my group thinking.

Lyn Young, National Conference Manager

---

**County NatWest Bank, Royal Exchange of Sydney, Sydney, 20/12/1993**

Since that fateful evening when you delivered your masterly exposition of the psycho- and socio-dynamic forces driving the cultural and climatic changes being experienced in the world finance sector and the necessary inventions and adaptations firms must make in order to re-create or preserve their core business, I have not been able to perform my usual office in Australia.

Indeed, so moved were the County NatWest staff and spouse (especially my boss), by your insight, erudition, capacity for hyperbole and sheer chutzpah that I am being dispatched to the UK to implement your solutions. That's my story, anyway - at least, it's what I've told my wife.

M D Barker, Executive Director

---

**Department of the Arts and Administrative Services, HC Coombs Centre, Reserve Bank, Sydney, 2/12/1993**

Brilliant.

Peter Harvey, Regional Coordinator, NSW

---

**Macquarie Bank, Offices of Macquarie Bank, Sydney, 1/12/1993**

**Oce - business technology, Offices of Oce, Sydney, 1/12/1993**

**IOOF, Parkroyal Canberra, Canberra, 23/11/1993**

Philip Fraher, General Manager, Funds Management Division

---

**Linfox Distribution, Monash Mt Eliza Business School, Melbourne, Melbourne, 13/11/1993**

Russ McKenzie, General Manager - Corporate Affairs

---

**Tasmanian Awards for Excellence in Advertising, PR and Marketing, Grand Chancellor Hobart, Hobart, 22/10/1993**

Your portrayal of the esteemed American academic Professor Marc Etting . . . was extremely convincing, to the extent that our Premier and the Chief of the Hobart Mercury were contemplating a possible return by you . . . to a formal luncheon of distinguished guests. In a way it's a shame the hoax did not continue . . .

Phil Wallbank, Member - Organising Committee

---

**Business Technology Association, Australian National Maritime Museum, Sydney, 21/10/1993**

What a character! What a hoax!

You listened to the brief - you researched your topic and the result was a 'top class' presentation! In a thoroughly entertaining manner, you addressed the relevant, serious and sometimes boring issues pertaining to our Industry. ...

People who sat with you during dinner said they were completely 'sucked in'. And one fellow said "and I'm not the gullible type - but Rodney sure fooled me!"

Deborah Campbell, Executive Director

---

**Alumina Quality Workshop, Kirkton Park, Regional NSW, 18/10/1993**

I'm writing to thank you for presenting a first rate address to our international group of technocrats.

You "had them in" from the beginning. Your blunt, cutting, criticisms of the industries' ability to effectively implement TQM principles really caught their attention.

Initially they were impressed by your obvious knowledge of the subject, then puzzled, then irritated and some even insulted as your presentation became more and more overt until it finally became apparent at the end of your excellent performance that the whole address was a hoax, a sham!

The evening proved to be an excellent ice-breaker and helped set the scene for the rest of the Workshop.

R M Knight, Chairman

---

**Energy Australia, Sheraton on the Park, Sydney, 7/10/1993**

... your comedy performance and MC role did indeed significantly contribute to probably the best function ever conducted by this organisation.

Don't know how you get away with it but you did.

Our Chairman wanted to know "where the hell you were employed in the organisation", is he "really an engineer" and "who the blazes is this bloke".

Well done.

**Pioneer International - Caltex Oil, Novotel on Collins, Melbourne, Melbourne, 28/08/1993**

Your send-up of a visiting Corporate Adviser to the International Texaco Group of Companies firstly confused, then intrigued and finally won over our Franchisees . . . thank you for a very entertaining and very productive contribution to our Conference.

M. D. Skippington, Regional Manager - Reseller Operations, Victoria

---

**Australian Tunnelling Conference, Hilton Sydney, Sydney, 25/08/1993**

... thank you - and your alter ego Colonel Chip Burroughs - for making our conference dinner a night to remember.

... we engineers are a cynical lot at the best of times, however you had a lot of us fooled with your performance. Who knows, if I had not been privy to your true identity, maybe I would have been one of the believers too!!

Again, thank you for a great experience, enhanced by your attention to detail whilst researching our industry. As you know we tend to use some rather suggestive terminology in the field of tunnelling!

Please rest assured that we will be promoting your services to our colleagues and clients in the future.

Lloyd Zenari, General Manager, Pacific Tunnelling

**Horseland, Stonelea, Acheron - near Alexandra, Regional Vic, 27/07/1993**

Your impersonation of a senior executive from an associate company in the United States, announcing the takeover of Horseland, was brilliant. It was absolutely brain snapping stuff for both our managers and franchisees.

Roger Jackson, Franchise Manager

---

**AMP, Swiss-Grand Hotel, Sydney, 26/07/1993**

Thank you for your brilliant portrayal of Dr Selwyn Spender, the dyed-in-the-wool bureaucrat from from the Insurance and superannuation commission, at our recent Small Business Advisors' conference.

Talking to the advisors afterwards, I was enthralled by the number who said they went through various stages of shock, horror, disbelief, amazement and relief. Not only did they go through the various stages, but they found themselves going in and out of each stage during your presentation. This was no doubt due to the effectiveness of your research and your ability to walk that fine line between fact and fiction.

On a personal level, thank you for the openness and friendliness afforded me at our briefing sessions.

Chris Sharpe, Manager, Superannuation and Business Insurance Training

---

**AFS International Exchange (American Field Scholarships), UNSW: University of New South Wales, Sydney, 17/07/1993**

**Croxley Collins Olympic, Swiss-Grand Hotel, Sydney, 25/06/1993**

The inaugural conference of the new business, Croxley Collins Olympic, which you were involved in, appears to have allayed the fears of our employees to the point where there is a sense of belonging and a purpose in the direction we are heading.

Your presentation was so enthusiastically received by all those present that it is not only referred to by our own people during the normal course of daily conversation but it is also referred to by other companies within our group that heard of your presentation and its success.

You taught us, however, to laugh at ourselves in the face of adversity.

It was a great presentation and you carried off the character "Hermann de Jurmann" to perfection.

Should the occasion arise again to use your skills I would certainly not hesitate to make contact with you.

Graham Johnson, General Manager

**Australian Graduate School of Management (AGSM), AGSM, Sydney, 19/06/1993**

We have received very positive feedback from the participants regarding your presentation. It was interesting that so many of them were victims of the hoax - no doubt due to the calibre of your performance!

Thank you again for providing an entertaining finale to our program. We will look forward to working with you again.

Professor David Midgley, Head, Marketing Group

---

**Australian Institute of Management, Hyatt Regency Adelaide, Adelaide, 11/06/1993**

Without doubt your guest speaker spot at the AIM dinner was the best that we have ever experienced. The feedback that I have personally received has been tremendous, our advertising agency said that you could get a job with them any time.

Suzanne and I still chuckle over many of the things that you said and how people were reacting to them. It was a most well researched presentation and really made the night.

Thank you therefore for your contribution to the AIM dinner and I hope to be able to listen to you some other time in the future, either as yourself or some other fictitious celebrity.

Richard Hancock, President AIM-SA

**Cathay Pacific Airways, Carlton Crest Sydney, Sydney, 1/06/1993**

Monsieur Edeot [Rodney] not only effectively delivered our sales message of daily flights to Paris, but also involved our guests in a very successful farce, including games such as pass the beret, and baguette fights.

Derek Morris, Marketing Communications Manager, Australia

---

**Westpac Travel, National Convention Centre, Canberra, Canberra, 14/05/1993**

Your address was very appropriate - or strictly inappropriate - I'm not sure which. Anyway, again, many thanks for a job well done. It was a great pleasure working with you.

Geoff Appleton, Chief Executive

---

**Australian Women's Weekly; Women's Day, Hotel Como, Melbourne, 6/05/1993**

... a fantastic afternoon's "entertainment".

The looks of shock and disbelief on the team's faces when the hoax was revealed were priceless!

We were delighted at the thought and preparation that had gone into your presentation, allowing a thoroughly realistic scenario to be established.

Leanne Dunn, Administration Manager, ACP

---

**McDonald's Family Restaurants, Sheraton Sydney Airport, Sydney, 29/04/1993**

Thank you very much for your outstanding performance last week.

We have used a lot of guest speakers at our meetings and functions over the years, and I always think to myself what a tough audience McDonald's people are. Well, you certainly broke down that barrier, and did it so convincingly and with real style.

John Blyth, National Field Marketing Manager

---

**Computer Software Packages / Prophecy, Lankawi Resort, Malaysia, Lankawi, 10/04/1993**

I thought I would write to you following our return from the Club 500 conference and thank you for your magnificent contribution to the proceedings.

As you will remember, I was somewhat worried that the high technology content of your hoax would be extremely difficult to pull-off in front of our worldwide distributors, who are noted for their sharpness and business acumen. The very fact that your hoax was telling them that all of the current computer software technology trends were in fact wrong, thereby completely undermining everything they and we are doing, added another layer of risk to that concerning the sheer command of the software technology terms which you had to achieve.

As of course you would know from the response, when your hoax was revealed at our conference dinner, my fears were completely unfounded and there is no doubt you surpassed our objectives completely.

Your keynote address on computer software technologies and the after dinner speech were undoubtedly the high spots at our conference and we will find it extremely difficult next year to engender the same amount of enthusiasm and debate which we did because of your spot.

I would like to go on record in thanking you for your efforts which went far beyond the objectives laid down, and surpassed my wildest expectations. You are a dangerous man! I hope your future hoaxes go as successfully as ours did.

Brian Calvert, Chief Executive Officer

---

**Australian Taxi Industry Association, Stamford Grand Glenelg, Adelaide, 25/03/1993**

There were many in the audience ready to purchase a Ford Flagfall and I think that confirms your professional and entertaining approach to your performance. You certainly had them fooled and "rolling in the aisles".

I have spoken to our sponsors, Ford Motor Company, and they too were extremely pleased with your speech.

Wally Sievers, Convenor

---

**Ridley, Deep Sea Fishing, Regional NSW, 15/03/1993**

. . . excellent . . . expertly delivered for maximum effect. Given the feedback I have received, delegates were fooled as well as being entertained.

Mike Dryden, Human Resources Manager

---

**Nationwide Realty, Hilton Sydney Airport, Sydney, 12/03/1993**

. . . a most entertaining and fun-filled session.

Roger Moran, State Manager

---

**Financial Institutions Remuneration Group, Hyatt on Collins, Melbourne, 1/03/1993**

Not only did you magnificently succeed in hoaxing most of the audience, but you did so in a fashion that was positively received when the hoax was declared.

You succeeded because after your presentation, without exception those that I spoke to felt that you had struck an amazing balance between tackling the topic in a semi-believable fashion and light-hearted assertion! There clearly was a lot of research and thinking in your presentation. Above all, I confess that I am still smiling in recollection of your "mischievous" humour.

I can certainly recommend you to other groups who also have a "good sport" mentality, who are ready to be taken in and entertained in this fashion.

Gordon Conolly, Chairman

**Steel Reinforcement Institute of Australia, Stamford Brisbane, Brisbane, 19/02/1993**

Excellent.

Mark Turner, Executive Director

---

**Australian Taxation Studies Program, Holiday Inn Coogee Beach, Sydney, 1/02/1993**

As you could imagine in preparing for such a function, I had to take into account that we would have a collection of over fifty relatively boring individuals who come from the ranks of the accounting and legal professions. In such circumstances, finding a speaker who could stimulate some excitement amongst the ranks was a tall order indeed. Thankfully, I found that Rory Tacque succeeded in provoking considerable initially and raucous laughter subsequently.

Your performance was so totally believable that a number of the dinner guests remained unconvinced that you were a fraud, preferring to believe that you really were a Clinton adviser. ... I think that I probably enjoyed it even more than you did.

Professor Bob Deutsch, Director

---

**Stratus Computer, Novotel Opal Cove Resort, Coffs Harbour, Regional NSW, 30/01/1993**

You added excitement to the mundane process of routine presentations and gave everyone something to talk about.

Nicole Kennedy, Office Administrator

---

**Randwick District Rugby Union Football Club, Randwick District Rugby Union Football Club, Sydney, 1/01/1993**

... excellent. You are still a major topic of conversation around the bar after the game.

Ray Evans, former Australian Captain

---

**Metro Holidays, Hotel - 1, Sydney CBD, Sydney, 1/01/1993**

The hoax that Rodney pulled off left our preferred travel agents totally amused, and they found him to be quite convincing due to the research he had undertaken.

There is no doubt in my mind that (our) dinner will be one that leaves them with fond memories and much to talk about.

Roma Zucconi, Sales Manager

---

**Dresdner International Financial Markets, Harbour cruise, or moored boat, Sydney, 1/01/1993**

Rodney Marks provided some excellent light relief when arriving by water taxi, and professing to be the new Managing Director of Westpac, he divulged some outrageous plans for the Bank.

Rodney was a delight to have along.

G J van Wyngen, Managing Director

---

**Roger Wilson Advertising, Offices at 55 Hunter Street, Sydney, 1/01/1993**

You had them on a string, a great performance.

Roger Wilson, Director

---

---

**Omni Office Interiors, Artarmon Inn, Sydney, 1/01/1993**

I am sure 'Dr Des Irons' [Rodney] was far better received than, dare I say, our genuine notable designer. Your presentation was spoken about long after the event, and certainly contributed to maintaining a very positive spirit throughout the remaining day of work, thus ensuring the success of our seminar.

John Moffat, National Sales & Marketing Manager

---

**Royal Australian Planning Institute, Panthers, Sydney, 1/01/1993**

. . . your performance was wonderful.

David Kettle, President

---

**Primary Industry Bank of Australia (PIBA), Defunct Manly Hotel, Sydney, 11/12/1992**

Dr Levi-Strauss [Rodney] was a great success. He was the talking point of the evening's festivities.

Mike Walter, General Manager

---

**Twenty Twenty Marketing, ANA Hotel Sydney, Sydney, 10/12/1992**

Well, those who got the joke on the day are still laughing, and those who didn't are still intrigued.

Again, on behalf of my fellow directors and our clients, thank you for a great experience wonderful laugh.

Matilde Busana, Managing Director

---

**Australian Institute of Training and Development, Carlton Crest Sydney, Sydney, 1/12/1992**

Your wonderfully satirical portrayal of the ever-looming Government official was greatly appreciated by us all.

Elinor Crossing, President, NSW Division

---

**Yale Club of Australia, Sheraton on the Park, Sydney, 27/11/1992**

. . . a good laugh was had by all.

Dr. Duff Watkins, President

---

**Cooperative Housing Societies' Association, Newcastle Town Hall, Regional NSW, 15/10/1992**

What a sensational hoax!

... your understanding of our business and presentation, supported by comprehensive slides, was truly great.

Gavan Sheerin, General Manager

---

**North Sydney Boys' High School, North Sydney Boys' High School, Sydney, 18/09/1992**

. . . the brilliance of your hoax . . . was excellent.

Ron Moffat, Chairman - Old Falconians Union

---

**Saint Peter's Collegians, Adelaide, Royal Automobile Club, Sydney, 7/08/1992**

You . . . were an outstanding success.

Your style of 'informed corporate comedy' is certainly unique and a welcome change from the more traditional after-dinner speaker's format. It combined that rare combination of wit and a well-researched speech that had all those who attended absolutely enthralled.

Ian Matheson, Secretary

---

**Telstra, Holiday Inn Crowne Plaza Terrigal, Regional NSW, 6/08/1992**

I have to compliment you on the excellent material you prepared for us. Your after-dinner speech was riotously funny and certainly deflated any egos still floating out there in the ether.

Jennie Wright, Marketing Services Manager

---

**Australian Society of Association Executives (AuSAE), Sofitel Wentworth, Sydney, 26/06/1992**

With name Beau Rocraci, we tried hard to let our audience know that they were being duped. However, you carried off the role of the insipid, heartless Public Servant to perfection. So well, in fact, that people still continued to ask serious questions of you well after you had revealed the hoax.

Peter Garrad, Executive Secretary

---

**Young Business Network, Restaurant - Newtown, Sydney, 4/01/1992**

. . . thank you for Dr Phillip Pitt's inspirational presentation on the life cycle of young executive brains.

As I was in on the whole comic hoax, I personally found your presentation cruelly entertaining in an intellectual sort of way.

Ian Hutchinson, President

---

**Rotary - Sydney Cove, Harbour cruise, or moored boat, Sydney, 3/01/1992**

The hoax went extremely well.

David Scarlett, President

---

**Australian Business Monthly, Sheraton on the Park, Sydney, 2/01/1992**

"Jim Kirk" future-shocks staff.

A mild-mannered, big-titled, public servant, with "change-of-season" coloured braces et al, shocked our interstate staff into believing that their states were at the brink of collapse.

Big relief set in when "Jim Kirk" turned into Rodney Marks!! However, one staffer has since crossed the border and is now working in Sydney (just in case?).
